

Proposed Development of the Golf Centre

Council of Dalhousie Golf Club Position Statement

- **There is a broad acceptance of the desirability of improving the existing facility.**
- **The facility must be viable and sustainable.**
- **Rigorous financial analysis should be conducted before any final decisions are made, and, as part of this process, a full option appraisal should be initiated.**
- **One of these options should incorporate a Links' Clubhouse to which Carnoustie golf clubs could relocate should they so wish.**
- **The development of a Links Clubhouse should entail close co-operation in the planning process with the Carnoustie golf clubs in order to achieve a consensus.**
